- ✈ **Productor de towbars para aviones y suministro eléctrico**

Aero-Pac® has more than 15 years of experience in the aviation sector.

We invent, manufacture and supply over 60 countries all over the world.

Our main products are power equipments, aircraft moving equipments, track and trace systems and wireless inspection cameras.

Our company operates from Belgium. Our 600 m<sup>2</sup> warehouse is equipped with fully automated machinery and we are close by the International airport of Wevelgem Kortrijk.

We are one of the market leaders in portable product technology for civil aviation, commercial aviation, corporate aviation, general aviation, flying schools, military, security services, police, fire services, search and rescue organizations, customs, border control, prisons, councils, the construction industry and many more.

Aero-Pac® is producing high quality aviation products at the right price.

Aero-Pac® customers can expect in depth technical support and operational advice.

## PORTABLE BATTERY START UNITS

**(CE-certified)**

Our unique range of 28 V or 12 V portable battery units are made for starting up your aircraft up to 1000 Amps. The best power-to-weight ratio on the market. Our units are available at very competitive prices.

## CONTINUOUS DC POWER SUPPLIES

**(CE-certified)**

Unit of 28 V or 12 V from 25 Amps to more than 200 Amps, for continuous power supplies to aircrafts and helicopters. Ideal for maintenance and preflight inspections.

## AIRCRAFT PLUGS AN2551

We are producer of aircraft external power plugs and cable sets.

Connect with confidence, disconnect in safety.

## AIRCRAFT MOVING EQUIPMENT

← **APT3000** Lightweight, portable, collapsible and extreme manoeuvrable aircraft towbars. For all shoeless aircrafts.

→ **APT3500** Stainless steel aircraft moving equipment, battery drill operated. Moves aircrafts up to 3000 kg

→ **APT4000** Battery operated aircraft moving equipment, long-lasting battery. GIRATOW® helicopter towing unit. With electro hydraulic helicopter lifting piston.

← **APT4500** Stainless steel construction, powerful, petrol engine operated and robust.

## INSPECTION CAMERAS

AeroCam® is a remarkable high quality, low cost inspection camera. with LCD screen, battery operated, CE-certified.

The AeroCam® is the perfect equipment for aircraft maintenance or preflight inspections. It is extremely timesaving.

## AIRPLANE TRACK AND TRACE DEVICES

**AEROTRACK®** is a track and trace device for airplanes. It's a compact size portable GPS logging solution.

With its on-board memory, it allows you to log your route, altitude and speed.

Through user friendly utility, it plots your track on Google Maps or aviation charts.

By coupling smart power-saving options with auto on/off it operates as datalogger or REALTIME through SMS or GPRS.

**Aero-Pac® helicopter platforms** are produced from an aluminium corrosion free construction.

The dimensions are 4,0 meter x 5,0 meter,  
other dimensions available.

The platform is delivered ready to use and has a height of only 12 cm or 4,7 inches which improves the safety during landing. It enables for instance landing with only one skid on the platform without endangering the safety.

Delivered in two units of 2,0 meter x 5,0 meter.

You can move the platform by a pallet truck  
or the Aero-Pac® towbars.

The platform is lifted by hydraulic pistons.  
Patented design.
